Letter of Recommendation For EasySocial

To Whom It May Concern:

We were EasySocial's first client, we started with them the first of May 2015. They were hired to manage our Facebook page, and to create and manage our Twitter and Instagram pages. After a year with them we have seen significant growth on our Facebook page, and we have realized a fairly strong presence on both our Instagram and Twitter pages.

Hiring EasySocial was a great decision, having them has taken huge amounts of work and stress off of our staff. They are able to manage our pages better than we were able to while greatly reducing the amount of time any of our staff had to dedicate to writing posts, answering comments and messages, or managing positive or negative reviews.

Over the last year with them managing our social media we have achieved significant client base growth and moved into a new office. As we grew, and changed, EasySocial was right by our side every step of the way.

They say that their mission is to help their clients succeed while making digital advertising and marketing simple and easy. It is my belief that they do exactly that.

We can recommend EasySocial with confidence that they will work relentlessly to serve you.

With regards,
Dr. Jeremy Thomas DDS
Owner of Integrity Dental
