Letter of Recommendation For EasySocial

To Whom It May Concern:

AriaBend's vision is to provide a home, counseling, rehabilitation, and hope for the future for human trafficking survivors. We are a brand new non-profit that we just made public in July, based in Dallas, Texas.

When we brought EasySocial on board, we had not even created an Instagram or Twitter account, but had just created a Facebook page. EasySocial had us up and running with a professional Twitter, Instagram and updated Facebook within days! Though I personally do understand how to run social media campaigns, and especially how to sell through Facebook, hiring EasySocial allowed me to have a very active presence on 3 social media platforms while effectively only having to help them set up the first month.

EasySocial and their services have allowed us to grow exponentially and we are ecstatic about our results so far! We plan to keep using EasySocial for a very long time. As a very happy customer I am happy to recommend EasySocial to you, whoever you may be. If you need your social media presence to grow, and you need it fast, EasySocial is the company for you.

Sincerely  
Julie Terrell  
CEO
